5. Speaking or Questions from Members of the Public under Standing Order 12

a) Aileen Owen Davies, a Runnymede resident, asks:

“Tree planting and increasing vegetation is now being undertaken around the country. Surrey has just committed to 57,500 new trees this year.

What policies and targets has Runnymede committed to?”

b) Deb Long, a Runnymede resident, asks:

An integral part of the Council's Climate Change strategy is to convene a Citizens Panel to regularly consult with stakeholders to exchange updates on the community and councils actions and initiatives also to track the Council's progress to its Net Zero 2030 target and Runnymede's progress towards the national target of Net Zero 2050. When will this Citizen Panel be established and what is the process for participant selection?
