

Appendix B

**Inspector Ian Nash**  
**Runnymede Borough**  
**Commander**  
27<sup>th</sup> February 2024

Dear Mr Finch,

I have reviewed this application for Street Trading and considered the potential impact on road safety and anti-social behaviour in the area.

In relation to road safety, I have concerns about the impact on parking availability in the area and the narrowing of an already narrow service road. Parking is limited in the area and the addition of the trailer and associated towing vehicle would compound any parking issues. The footway may also become congested with customers, impacting residents' ability to pass.

I am also concerned about the location in question and the impact on anti-social behaviour. The trailer would be set-up in very close proximity to residential properties, directly outside the window of some. This would naturally lead to an increase in gathering outside these properties and an increase in noise and littering. In my view this could be detrimental to the quality of life of residents in these properties.

The area itself has an abundance of food outlets and as such I do not see that the area, persons in the area, or those visiting would be negatively affected by the refusal of this proposal.

Based on these concerns I am unable to support this proposal and I would request that The Broadway, New Haw as a whole is removed as a consent street due to the layout and immediate surrounding area.

Yours sincerely

Ian Nash  
Runnymede Borough Commander
