

Appendix D – Response from Surrey Police

I confirm that I support to remove the streets listed below as its status as a consent street to prevent future applications for street trading at the location. I make comment to this in relation to road safety and crime & disorder matters.

The nature of the area is already congested with numerous tight junctions making it potentially even more unsafe for road users and to pedestrians, which would likely increase in numbers if a street trader was present.

The business at the location would likely attract persons later at night therefore having a detrimental impact on the residents who live on these same streets, and I would foresee an increase in anti-social behaviour recorded should such licence be granted.

Kind regards,

Inspector 3903 Ian Nash
Runnymede Borough Commander
Addlestone Civic Centre
