

Appendix B

Inspector James Wyatt
Runnymede Borough
Commander
2nd August 2023

Dear Mr Finch,

I have reviewed this application for Street Trading and considered the potential impact on road safety and anti-social behaviour in the area.

In relation to road safety, I have concerns about the impact on parking availability in the area and the narrowing of an already narrow service road. Parking is limited in the area and the addition of the trailer and associated towing vehicle would compound any parking issues. The footway may also become congested with customers, impacting residents' ability to pass.

I am also concerned about the location in question and the impact on anti-social behaviour. The trailer would be set-up in very close proximity to residential properties, directly outside the window of some. This would naturally lead to an increase in gathering outside these properties and an increase in noise and littering. In my view this could be detrimental to the quality of life of residents in these properties.

Based on these concerns I am unable to support this proposal.

Yours sincerely

James Wyatt
Runnymede Borough Commander
